

Our school benefits from being part of the NSW public school system

As part of the large NSW education system, our school benefits from having the fully qualified professional teachers plus a wide variety of support and innovative learning programs.

Delivering your child's future success today

Kings Langley Public School has had great success educating local children for 27 years. Our students have gone on to achieve success in their secondary and tertiary education and adult lives.

We offer you and your child a comprehensive education which is both challenging and individualised through:

- Innovative and challenging education programs
- Outstanding results
- Highly qualified, skilled and dedicated teachers
- A safe and nurturing learning environment
- Extension programs that meet the needs of individual students
- Excellent, modern facilities
- Opportunities to participate in the arts and sports programs at regional and state level

Kings Langley Public School

Excellence in Scholarship, Citizenship
& Personal Development

A personal invitation to parents.

Kings Langley Public School students learn in a stimulating and challenging environment and are encouraged to reach their full potential.

Strong academic programs, highly dedicated staff and excellent facilities offer your child the very best opportunities for success.

We invite you to visit our school and discuss how we can meet the needs of your child.

Academic excellence

Our school has a strong emphasis on literacy and numeracy, with support programs if needed. Our excellent results in statewide tests are evidence of our success.

The knowledge, enthusiasm and creativity of our highly qualified staff inspire our students to explore their individual interests in different subjects. Whether English, mathematics or science and technology, we offer extra programs to extend students' abilities and passions.

Strong foundation in literacy

Kings Langley Public School has a strong commitment to literacy. We cater for literacy needs of all students, whether they are 'gifted & talented' or students requiring additional support. We provide extra support to students by providing a specialist teacher for specific learning problems. This support benefits students who may need extra support in developing their reading.

Quality programs in numeracy

Numeracy programs at Kings Langley Public School are implemented through carefully sequenced programs based on the state curriculum. Technology plays an integral part in the development of numeracy skills and student's progress is carefully monitored through regular assessment. In both literacy and numeracy, quality support programs and specialist staff are available to assist children experiencing difficulties.

A rich learning experience

An innovative creative arts program offering drama, dance, art and music fosters the individual talents and interests

of each student. We regularly participate in major performances at the local and state level.

Our sports program builds on a tradition of achievement. We run successful sporting teams coached by very experienced staff. Participation in sport builds teamwork, confidence and leadership in our students.

Kings Langley Public School provides enrichment and extension programs within the classroom for gifted and talented students and specialised support for students with difficulties in learning.

A friendly, caring and safe school

Kings Langley Public School students prosper in a safe and nurturing learning environment that develops respect, understanding and responsibility. We have an effective pastoral and discipline policy that focus on individual responsibility, social skills, decision making and citizenship.

Outstandingly well-resourced school

Our school has well presented grounds with plenty of open space and shade areas. We have a well-resourced library, excellent technology facilities, and a well equipped air conditioned hall, comfortable classrooms with air conditioning and flexible learning spaces.

Strong parent participation

We are a friendly open school community with strong cooperative relationships with our parents and local community. Our parents make valuable contributions to the educational and managerial aspects of the school at all levels. We are open and accountable to our community, meeting local needs and national standards.
